PACE News

Keeping Up with PACE

Data analytics has been called the most powerful business tool in today's world. Analytics are increasingly being used by those in finance, accounting, and related fields to generate important insights and improve decision making. We all need to know what is being done in this field, how current challenges are being addressed by analytics, and what data analysts can offer their clients.

With that in mind, be sure not to miss the upcoming meeting of PACE's Data Analytics interest group on May 26th (register at <https://tinyurl.com/AnalyticsIG>), which will feature an open discussion around topics such as these. Also consider joining this Interest Group to keep abreast of current developments in the area.

This will be the last issue of PACE News available on our website. We're excited to announce that future issues of our newsletter will be published on LinkedIn. Be sure you're following PACE on LinkedIn in order to continue receiving our newsletter. If you find it interesting and useful, please share it with others!

-- Raef Lawson, Executive Director

Upcoming Events:

- Webcast: May 26, 2022 | 11am | What's Happening in Data Analytics
- Webcast: May 27, 2022 | 4pm EDT | PACE Academic Interest Group Meeting
